38— marea ambient 01

44— marea ambient 02

51— overview

MAREA — a homage to water in its diversity.

As powerful as a waterfall, as refreshing as rain or as ethereal as mist – with these three functions, *MAREA* creates individual feel-good and spa moments.

As *MAREA 01, 02, 03* and *04*, the wellness showerheads offer the rain, mist and waterfall functions. *MAREA AMBIENT 01* and *02* add atmospheric light to the shower experience.

/ collections & colors

MAREA Wellness Showerheads are combined with the VALLONE® taps *COMO* and *NOYA* and the respective concealed installation units. In order to have a complete shower experience, the correct combination of concealed and surface-mounted sets and professional installation are required.

The shower heads in the finishes Brushed Steel, Brushed Gold, Smooth Bronze and Gun Metal Black can be combined with the taps from the *COMO* series. *MAREA* in Matt Black is installed in combination with *NOYA* taps.

MAREA is explicitly suitable for damp rooms. The control panel for the *Wellness Showerheads MAREA AMBIENT 01* and *02* is protected against splash water in accordance with IP64. Nevertheless, the control panel must be installed outside the direct shower area.

Detailed information on correct installation and the technology behind *MAREA* can be found in the corresponding installation instructions.

marea ambient 02

Fits, functions & *how to combine?*

Waterfall, rain, mist – the concealed and surface-mounted sets are to be selected depending on the range of functions of the respective *MAREA* shower head. The various possible combinations are shown on the following pages.

The light functions of *MAREA AMBIENT 01* and *02* can be controlled in parallel with one of the three water functions. Details can be found on the following pages.
